ROLE OF AND GUIDING PRINCIPLES FOR EMPLOYEES

This series of the board policy manual is devoted to the board's goals and objectives for employees in the performance of their jobs. Employees provide a variety of important services for the children of the school district community. They may be teaching or assisting in the classroom, working in the office, maintaining the facilities, driving or repairing the school buses, or cooking lunches. Each employee plays a vital role in providing an equal opportunity for a quality education for students commensurate with the students' individual needs. While the teachers have the most direct impact on the formal instruction of students, all employees have an impact on the school environment by their dedication to their work and their actions. As role models for the students, employees shall promote a cooperative, enthusiastic, and supportive learning environment for the students.

In striving to achieve a quality education program, the board's goal is to obtain and retain qualified and effective employees. The board shall have complete discretion to determine the number, the qualifications, and the duties of the positions and the school district's standards of acceptable performance. It shall be the responsibility of the superintendent to make recommendations to the board in these areas prior to board action.

Board policies in this series relating to general employees shall apply to employees regardless of their position as a licensed employee, classified employee, substitute or administrator. Board policies relating to licensed employees shall apply to positions that require a teaching license or administrator's certificate or other professional license, certificate or endorsement, unless administrative positions are specifically excluded from the policy. Classified employees' policies included in this series shall apply to positions that do not fall within the definition of licensed employee.

EQUAL EMPLOYMENT OPPORTUNITY

The Central Lyon Community School District will provide equal opportunity to employees and applicants for employment in accordance with applicable equal employment opportunity and affirmative action laws, directives and regulations of federal, state and local governing bodies. Opportunity to all employees and applicants for employment includes hiring, placement, promotion, transfer or demotion, recruitment, advertising or solicitation for employment, treatment during employment, rates of pay or other forms of compensation, and layoff or termination. The school district will take affirmative action in major job categories where women, men, minorities and persons with disabilities are underrepresented. Employees will support and comply with the district's established equal employment opportunity and affirmative action policies. Employees will be given notice of this policy annually.

The board will appoint an affirmative action coordinator. The affirmative action coordinator will have the responsibility for drafting the affirmative action plan. The affirmative action plan will be reviewed by the board at least every two years.

Individuals who file an application with the school district will be given consideration for employment if they meet or exceed the qualifications set by the board, administration, and Iowa Department of Education for the position for which they apply. In employing individuals, the board will consider the qualifications, credentials, and records of the applicants without regard to race, color, national origin, gender, disability, age, religion, creed, sexual orientation, marital status, and gender identity. In keeping with the law, the board will consider the veteran status of applicants.

Prior to a final offer of employment for any teaching position the school district will perform the background checks required by law. The district may determine on a case-by-case basis that, based on the duties, other positions within the district will also require background checks. Based upon the results of the background checks, the school district will determine whether an offer will be extended. If the candidate is a teacher who has an initial license from the BOEE, then the requirement for a background check is waived.

Advertisements and notices for vacancies within the district will contain the following statement: The Central Lyon Community School District is "an EEO/AA employer." The statement will also appear on application forms.

Inquiries by employees or applicants for employment regarding compliance with equal employment opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, will be directed to the Affirmative Action Coordinator by writing to the Affirmative Action Coordinator, Central Lyon Community School District, 1105 S. Story Street, Rock Rapids , Iowa 51246; or by telephoning 712-472-2664 .

EQUAL EMPLOYMENT OPPORTUNITY

Inquiries by employees or applicants for employment regarding compliance with equal employment opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, may also be directed in writing to the Director of the Region VII office of Civil Rights, U.S. Department of Education, 310 W. Wisconsin Ave., Ste. 800, Milwaukee, Wisconsin, 53203-2292, (414) 291-1111 or the Iowa Civil Rights Commission, 400 E. 14th Street, Des Moines, Iowa, 50319-1004, (515) 281-4121 or 1-800-457-4416, <http://www.state.ia.us/government/crc/index.html>. This inquiry or complaint to the federal office may be done instead of, or in addition to, an inquiry or complaint at the local level.

Further information and copies of the procedures for filing a complaint are available in the school district's central administrative office and the administrative office in each attendance center.

EMPLOYEE CONFLICT OF INTEREST

Employees' use of their position with the school district for financial gain is considered a conflict of interest with their position as employees and may subject employees to disciplinary action.

Employees have access to information and a captive audience that could award the employee personal or financial gain. No employee may solicit other employees or students for personal or financial gain to the employee without the approval of the superintendent. If the approval of the superintendent is given, the employee must conduct the solicitations within the conditions set by the superintendent. Further, the superintendent may, upon five days notice, require the employee to cease such solicitations as a condition of continued employment.

Employees will not act as an agent or dealer for the sale of textbooks or other school supply companies doing business with the school district. Employees will not participate for personal financial remuneration in outside activities wherein their position on the staff is used to sell goods or services to students or to parents. Employees will not engage in outside work or activities where the source of information concerning the customer, client or employer originates from information obtained because of the employee's position in the school district.

It will also be a conflict of interest for an employee to engage in any outside employment or activity which is in conflict with the employee's official duties and responsibilities. In determining whether outside employment or activity of an employee creates a conflict of interest, situations in which an unacceptable conflict of interest is deemed to exist will include, but not be limited to, any of the following:

- (1) The outside employment or activity involves the use of the school district's time, facilities, equipment and supplies or the use of the school district's badge, uniform, business card or other evidences of office to give the employee or the employee's immediate family an advantage or pecuniary benefit that is not available to other similarly situated members or classes of members of the general public. For purposes of this section, a person is not "similarly situated" merely by being related to an employee who is employed by the school district.
- (2) The outside employment or activity involves the receipt of, promise of, or acceptance of more or other consideration by the employee or a member of the employee's immediate family from anyone other than the school district for the performance of any act that the employee would be required or expected to perform as part of the employee's regular duties or during the hours during which the employee performs service or work for the school district.
- (3) The outside employment or activity is subject to the official control, inspection, review, audit or enforcement authority of the employee during the performance of the employee's duties.

If the outside employment or activity is employment or activity in (1) or (2) above, the employee must cease the employment of or activity. If the activity or employment falls under (3), then the employee must:

EMPLOYEE CONFLICT OF INTEREST

- Cease the outside employment or activity; or,
- Publicly disclose the existence of the conflict and refrain from taking any official action or performing any official duty that would detrimentally affect or create a benefit for the outside employment or activity. Official action or official duty includes, but is not limited to, participating in any vote, taking affirmative action to influence any vote, or providing any other official service or thing that is not available generally to members of the public in order to further the interests of the outside employment or activity.

It is the responsibility of each employee to be aware of and take the necessary action to eliminate a potential conflict of interest should it arise.

The records will include, but not be limited to, records necessary for the daily administration of the school district, salary records, evaluations, application for employment, references, and other items needed to carry out board policy. Employee personnel files are school district records and are considered confidential records and therefore are not generally open to public inspection or accessibility. Only in certain limited instances, when the employee has given a signed consent, will employee personnel records be accessible to individuals other than the employee or authorized school officials.

Employees may have access to their personnel files, with the exception of letters of reference, and copy items from their personnel files at a time mutually agreed upon between the superintendent and the employee. The school district may charge a reasonable fee for each copy made. However, employees will not be allowed access to the employment references written on behalf of the employee. Board members will generally only have access to an employee's file when it is necessary because of an employee related matter before the board.

It is the responsibility of the superintendent to keep employees' personnel files current. The board secretary is the custodian of employee records.

It is the responsibility of the superintendent to develop administrative regulations for the implementation of this policy.

STAFF TECHNOLOGY USE/SOCIAL NETWORKING

Computers are a powerful and valuable education and research tool and, as such, are an important part of the instructional program. In addition, the school district depends upon computers as an integral part of administering and managing the schools' resources, including the compilation of data and recordkeeping for personnel, students, finances, supplies and materials. This policy outlines the board's expectations in regard to these different aspects of the school district's computer resources. Employees must conduct themselves in a manner that does not disrupt from or disrupt the educational process and failure to do so will result in discipline, up to and including, discharge.

General Provisions

The superintendent is responsible for designating a Technology Coordinator who will oversee the use of school district computer resources. The Technology Coordinator will prepare in-service programs for the training and development of school district staff in computer skills, appropriate use of computers and for the incorporation of computer use in subject areas.

The superintendent, working with appropriate staff, shall establish regulations governing the use and security of the school district's computer resources. The school district will make every reasonable effort to maintain the security of the system. All users of the school district's computer resources, including students, staff and volunteers, shall comply with this policy and regulation, as well as others impacting the use of school equipment and facilities. Failure to comply may result in disciplinary action, up to and including discharge, as well as suspension and/or revocation of computer access privileges.

Usage of the school district's computer resources is a privilege, not a right, and that use entails responsibility. All information on the school district's computer system is considered a public record. Whether there is an exception to keep some narrow, specific *content* within the information confidential is determined on a case by case basis. Therefore, users of the school district's computer network must not expect, nor does the school district guarantee, privacy for e-mail or use of the school district's computer network including web sites visited. The school district reserves the right to access and view any material stored on school district equipment or any material used in conjunction with the school district's computer network.

- record retention, and
- disaster recovery plans.

STAFF TECHNOLOGY USE/SOCIAL NETWORKING

Social Networking or Other External Web Sites

For purposes of this policy any web site, other than the school district web site or school-school district sanctioned web sites, are considered external web sites. Employees shall not post confidential or proprietary information, including photographic images, about the school district, its employees, students, agents or others on any external web site without consent of the superintendent. The employee shall adhere to all applicable privacy and confidentiality policies adopted by the school district when on external web sites. Employees shall not use the school district logos, images, iconography, etc. on external web sites. Employees shall not use school district time or property on external sites that are not in direct-relation to the employee's job. Employees, students and volunteers need to realize that the Internet is not a closed system and anything posted on an external site may be viewed by others, all over the world. Employees, students and volunteers who don't want school administrators to know their personal information, should refrain from exposing it on the Internet. Employees, who would like to start a social media site for school district sanctioned activities, should contact the superintendent.

It is the responsibility of the superintendent to develop administrative regulations implementing this policy.

CHILD ABUSE REPORTING

In compliance with state law and to provide protection to victims of child abuse, the board believes incidents of alleged child abuse should be reported to the proper authorities. All licensed school employees, teachers, coaches and paraeducators are mandatory reporters as provided by law and are to report alleged incidents of child abuse they become aware of within the scope of their professional duties.

When a mandatory reporter suspects a student is the victim of child abuse, the mandatory reporter shall make an oral report of the suspected child abuse to the Iowa Department of Human Services within 24 hours of becoming aware of the abusive incident and shall make a written report to the Iowa Department of Human Services within 48 hours following the oral report. If the mandatory reporter believes the child is in immediate danger, the local law enforcement agency will also be notified.

Within six months of their initial employment, mandatory reporters will take a two-hour training course involving the identification and reporting of child abuse, or submit evidence they have taken the course within the previous five years. The course will be re-taken at least every five years.

NOTE: For more information, please visit the “Report Abuse and Fraud” section of the Iowa Department of Human Services’ website, located at <http://dhs.iowa.gov/report-abuse-and-fraud>.

NOTE: Please remember there are two types of reporters identified in Iowa law: mandatory reporters and permissive reporters. Mandatory reporters are those individuals who are required by law to report suspected incidents of child abuse when they become aware of such incidents within the scope of their employment or professional responsibilities. Permissive reporters are not required by law to report abuse, but may choose to report to the Iowa Department of Human Services. While all licensed school employees, teachers, coaches and paraeducators are mandatory reporters within the scope of their profession, they are considered permissive reporters outside the scope of their profession.

CHILD ABUSE REPORTING REGULATION

Iowa law requires all licensed school employees, teachers, coaches and paraeducators to report to the Iowa Department of Human Services (DHS) instances of suspected child abuse which they become aware of within the scope of their professional practice.

The law further specifies that a licensed employee who knowingly or willfully fails to report a suspected case of child abuse is guilty of a simple misdemeanor and that the licensed employee may be subject to civil liability for damages caused by the failure to report.

Employees participating in good faith in the making of a report or in a judicial proceeding that may result from the report are immune from liability.

Child Abuse Defined

"Child abuse" is defined as:

- Any non-accidental physical injury, or injury which is at variance with the history given of it, suffered by a child as the result of the acts or omissions of a person responsible for the care of the child.
- The commission of a sexual offense with or to a child . . . as a result of the acts or omissions of the person responsible for the child. . . . Sexual offense includes sexual abuse, incest, and sexual exploitation of a minor.
- The failure on the part of a person responsible for the care of a child to provide for the adequate food, shelter, clothing or other care necessary for the child's welfare when financially able to do so. A parent or guardian legitimately practicing religious beliefs who does not provide specified medical treatment for a child for that reason alone shall not be considered abusing the child.
- The acts or omissions of a person responsible for the care of a child which allow, permit or encourage the child to engage in acts prohibited pursuant to Iowa Code, section 725.1 which deals with prostitution.

Teachers in public schools are not "persons responsible for the care of the child" under this definition. However, a teacher who abuses a child is subject to civil, criminal, and professional sanctions.

CHILD ABUSE REPORTING REGULATION

Reporting Procedures

All licensed school employees, teachers, coaches, paraeducators and school nurses, are required to report, either orally or in writing, within twenty-four (24) hours to the Iowa Department of Human Services (DHS) when the employee reasonably believes a child has suffered from abuse within the scope of employment. Within forty-eight (48) hours of an oral report, a written report must be filed with DHS.

Each report should contain as much of the following information as can be obtained within the time limit. However, the law specifies that a report will be considered valid even if it does not contain all of the following information:

- name, age, and home address of the child;
- name and home address of the parents, guardians or other persons believed to be responsible for the care of the child;
- the child's present whereabouts if not the same as the parent's or other person's home address;
- description of injuries, including evidence of previous injuries;
- name, age, and condition of other children in the same home;
- any other information considered helpful; and,
- name and address of the person making the report.

Board policy states that it is not the responsibility of employees to prove that a child has been abused or neglected. Employees should not take it upon themselves to investigate the case or contact the family of the child. The DHS is responsible for investigating the incident of alleged abuse.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES

Physical or sexual abuse of students, including inappropriate and intentional sexual behavior, by employees will not be tolerated. The definition of employees for the purpose of this policy includes not only those who work for pay but also those who are volunteers of the school district under the direction and control of the school district. Employees found in violation of this policy will be subject to disciplinary action up to and including discharge.

The school district will respond promptly to allegations of abuse of students by school district employees by investigating or arranging for the investigation of an allegation. The processing of a complaint or allegation will be handled confidentially to the maximum extent possible. Employees are required to assist in the investigation when requested to provide information and to maintain the confidentiality of the reporting and investigation process.

The school district has appointed a Level I investigator and alternate Level I investigator. The school district has also arranged for a trained, experienced professional to serve as the Level II investigator. The Level I investigator and alternate will be provided training in the conducting of an investigation at the expense of the school district. The names of the investigators are listed in the student handbook, published annually in the local newspaper and posted in all school facilities.

The superintendent is responsible for drafting administrative regulations to implement this policy.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

An individual who has knowledge an employee has physically or sexually abused a student may immediately report it to the individual appointed in the June board meeting as the school district's Level I investigator. "Employee" means one who works for pay or as a volunteer under the direction and control of the school district. The report is written, signed and witnessed by a person of majority age. The witness may be the Level I investigator. The reporter is the individual filing the report. The report will contain the following:

- The full name, address, and telephone number of the person filing.
- The full name, age, address, and telephone number, and attendance center of the student.
- The name and place of employment of the employee who allegedly committed the abuse.
- A concise statement of the facts surrounding the incident, including date, time, and place of occurrence, if known.
- A list of possible witnesses by name, if known.
- Names and locations of persons who examined, counseled or treated the student for the alleged abuse, including the dates on which those services were provided, if known.

Upon request, the Level I investigator may assist the reporter in completing the report. An incomplete report will not be rejected unless the missing information would render the investigation futile or impossible. An employee receiving a report of alleged abuse of a student by an employee will pass the report to the investigator and will keep the report confidential to the maximum extent possible. In performing the investigation, the investigator will have access to the educational records of the alleged student victim as well as access to the student for interviewing purposes.

In order for the school district to have jurisdiction over the acts and to constitute a violation of the law, acts of the employee must be alleged to have occurred on school grounds, on school time, at a school-sponsored activity, or in a school-related context. However, the student need not be a student in the school district. The student can be from another school district. To be investigable, the written report must include basic information showing that the victim of the alleged abuse is or was a student at the time of the incident, that the alleged act of the employee resulted in injury or otherwise meets the definition of abuse in these rules, and that the person responsible for the act is currently an employee. If the report is not investigable due to lack of jurisdiction, the investigator will dismiss the complaint and inform the reporter of other options available. Other options available to the reporter include contacting law enforcement authorities, private counsel, or the Board of Educational Examiners in the case of a licensed employee.

If the Level I investigator believes the student is in imminent danger if continued contact is permitted between the employee and the student, the Level I investigator may:

- temporarily remove the student from contact with the employee;
- temporarily remove the employee from service; or,
- take other appropriate action to ensure the student's safety.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

The Level I investigator will have access to the educational records of the student and access to the student for purposes of interviewing the student about the report.

Physical Abuse Allegations

When physical abuse is reported, the Level I investigator will make copies of the report and give a copy to the person filing the report, the students' parents and the immediate supervisor of the employee named in the report. The employee named in the report will not receive a copy of the report until the employee is initially interviewed.

The Level I investigator will use discretion in handling the information received regarding an investigation of abuse by an employee, and those persons involved in the investigation will not discuss information regarding the complaint outside the investigation. The entire investigative procedure will be thoroughly explained, including the confidential nature of the proceedings, to the student and other persons involved in the investigation.

Within five days of receipt of an investigable report, the Level I investigator will complete an informal investigation. The informal investigation will consist of interviews with the student, the employee and others who may have knowledge of the alleged incident. If the Level I investigator determines that the allegations in the report are founded and that immediate and professional investigation is necessary, the Level I investigator may defer further investigation and contact appropriate law enforcement officials, the student's parents and the person filing the report. Within fifteen days of receipt of the report, the Level I investigator will complete a written investigative report, unless the investigation was temporarily deferred.

The written investigative report will include:

1. The name, age, address and attendance center of the student named in the report.
2. The name and address of the student's parent or guardian and the name and address of the person filing the report, if different from the student's parent or guardian.
3. The name and work address of the employee named in the report as allegedly responsible for the abuse of the student.
4. An identification of the nature, extent and cause, if known, of any injuries or abuse to the student named in the report.
5. A general review of the investigation.
6. Any actions taken for the protection and safety of the student.
7. A statement that, in the investigator's opinion, the allegations in the report are either:
 - Unfounded. (*It is not likely that an incident, as defined in these rules, took place*), or
 - Founded. (*It is likely that an incident took place.*)

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

8. The disposition or current status of the investigation.
9. A listing of the options available to the parents or guardian of the student to pursue the allegations. These options include, but are not limited to:
 - Contacting law enforcement officials.
 - Contacting private counsel for the purpose of filing a civil suit or complaint.
 - Filing a complaint with the board of educational examiners if the employee is a licensed employee.

The investigator will retain the original and provide a copy of the written investigative report to the school employee named in the report, the employee's supervisor and the student's parent or guardian. The person filing the report, if not the student's parent or guardian, is notified only that the Level I investigation has been concluded and of the disposition or anticipated disposition of the case.

It is the responsibility of the Level I investigator to determine whether it is more likely than not that an incident of abuse as defined in the rules took place between the student and employee. The Level I investigator does not make the determination of whether the use of physical contact was appropriate or whether any of the exceptions apply. That is the responsibility of the Level II investigator. Upon completion of the report, if the Level I investigator determines the allegations of physical abuse are founded and serious, the Level I investigator will notify law enforcement authorities. If the allegations are founded but the physical abuse is not of a serious nature, the Level I investigator will refer the case on to the individual appointed at the June board meeting annually as the Level II investigator.

The Level II investigator will review the Level I investigator's final investigative report and conduct further investigation. The Level II investigative report will state the conclusion as to the occurrence of the alleged incident, the applicability of exceptions, the reason for the contact or force used, and recommendations regarding the need for further investigation. In determining the applicability of the exceptions or the reasonableness of the contact or force used, the Level II investigator will use the following definitions:

Physical abuse is non-accidental physical injury to the student as a result of the action of an employee. Injury occurs when evidence of it is still apparent at least twenty-four hours after its occurrence. The following do not constitute physical abuse, and no employee is prohibited from:

- a. Using reasonable and necessary force, not designed or intended to cause pain:
 - (1) To quell a disturbance or prevent an act that threatens physical harm to any person.
 - (2) To obtain possession of a weapon or other dangerous object within a pupil's control.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

- (3) For the purposes of self-defense or defense of others as provided for in Iowa Code § 704.3.
 - (4) For the protection of property as provided for in Iowa Code §§ 704.4, .5.
 - (5) To remove a disruptive pupil from class, or any area of school premises or from school-sponsored activities off school premises.
 - (6) To prevent a student from the self-infliction of harm.
 - (7) To protect the safety of others.
- b. Using incidental, minor, or reasonable physical contact to maintain order and control.

In determining the reasonableness of the contact or force used, the following factors are considered:

- a. The nature of the misconduct of the student, if any, precipitating the physical contact by the school employee.
- b. The size and physical condition of the student.
- c. The instrumentality used in making the physical contact.
- d. The motivation of the school employee in initiating the physical contact.
- e. The extent of injury to the student resulting from the physical contact.

"Reasonable force" is that force and no more which a reasonable person, in like circumstances, would judge to be necessary to prevent an injury or loss and can include deadly force if it is reasonable to believe that such force is necessary to avoid injury or risk to one's life or safety or the life or safety of another, or it is reasonable to believe that such force is necessary to resist a like force or threat.

Upon completion of the Level II investigation, the Level I investigator will forward copies of the Level II investigative report to the employee, the employee's immediate supervisor and the student's parent. The Level I investigator will notify the person filing the report of the current status of the case.

If the Level II investigator's report or law enforcement officials conclude abuse occurred, or the employee admits the violation, or the employee has surrendered the employee's certificate or license, the Level I investigator will file a complaint with the State Board of Educational Examiners. The Level I investigator will also arrange for counseling services for the student if the student or student's parents request counseling services.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

Sexual Abuse

Sexual abuse is defined as including sexual acts involving a student, acts that encourage the student to engage in prostitution, as well as inappropriate, intentional sexual behavior or sexual harassment by the employee toward a student. "Sexual harassment" is defined as unwelcome sexual advances, requests for sexual favors or other verbal or physical conduct of a sexual nature when:

1. Submission to the conduct is made either implicitly or explicitly a term or condition of the student's education or benefits;
2. Submission to or rejection of the conduct is used as the basis for academic decisions affecting that student; or
3. The conduct has the purpose or effect of substantially interfering with a student's academic performance by creating an intimidating, hostile or offensive education environment.

When sexual abuse is reported, the Level I investigator will make copies of the report and give a copy to the person filing the report, the students' parents and the immediate supervisor of the employee named in the report. The employee named in the report will not receive a copy of the report until the employee is initially interviewed. The designated investigator will not interview the school employee named in a report of sexual abuse until after a determination is made that jurisdiction exists, the alleged victim has been interviewed and a determination made that the investigation will not be deferred.

The investigator will notify the parent, guardian or legal custodian of a student in prekindergarten through grade six, of the date and time of the interview and of the right to be present or to see and hear the interview or send a representative in the parent's place. The Level I investigator will interview the student as soon as possible, but in no case later than five days from the receipt of a report or notice of the allegation of sexual abuse. The Level I investigator may record the interview electronically.

The Level I investigator will exercise discretion in the investigative process to preserve the privacy interests of the individuals involved. To the maximum extent possible, the investigator will maintain the confidentiality of the report.

It is the responsibility of the Level I investigator to determine whether it is more likely than not that an incident took place between the employee and the student. If the Level I investigator believes the employee committed a sex act with a student or sexually exploited a student, the Level I investigator will defer the Level I investigation and immediately notify law enforcement officials, the student's parents and the person filing the report.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

If the Level I investigator determines an incident occurred, while not an illegal sex act with a student or sexual exploitation of a student, but where the employee engaged in inappropriate, intentional sexual behavior, further investigation is warranted. If further investigation is warranted, the Level I investigator may proceed to interview the employee and other individuals who may have knowledge of the circumstances contained in the report. Prior to interviewing other individuals who may have knowledge of the circumstance contained in the report, the Level I investigator will provide notice of the impending interview of student witnesses or the student who is in pre-kindergarten through grade six, to their parent, guardian, or legal custodian, and may provide notice to the parent or guardian of older students, prior to interviewing those students. The Level I investigator shall, if founded, arrange for the Level II investigator to further investigate the allegations.

Within fifteen days of receipt of the report or notice of alleged sexual abuse, the Level I investigator will complete a written investigative report unless the investigation was temporarily deferred. The written investigative report will include:

1. The name, age, address and attendance center of the student named in the report.
2. The name and address of the student's parent or guardian and the name and address of the person filing the report, if different from the student's parent or guardian.
3. The name and work address of the school employee named in the report as allegedly responsible for the abuse of the student.
4. An identification of the nature, extent and cause, if known, of any injuries or abuse to the student named in the report.
5. A general review of the investigation.
6. Any actions taken for the protection and safety of the student.
7. A statement that, in the investigator's opinion, the allegations in the report are either:
 - Unfounded. (*It is not likely that an incident, as defined in these rules, took place*), or
 - Founded. (*It is likely that an incident took place.*)
8. The disposition or current status of the investigation.
9. A listing of the options available to the parents or guardian of the student to pursue the allegations. These options include, but are not limited to:
 - Contacting law enforcement officials.
 - Contacting private counsel for the purpose of filing a civil suit or complaint.
 - Filing a complaint with the board of educational examiners if the school employee is certificated.

The investigator will retain the original and provide a copy of the investigative report to the school employee named in the report, the school employee's supervisor and the named student's parent or guardian. The person filing the report, if not the student's parent or guardian, is notified only that the Level I investigation has been concluded and of the disposition or anticipated disposition of the case.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

If the allegations are founded, the Level I investigation will refer the case to the Level II investigator. The Level II investigator will review the Level I investigator's final investigative report and conduct further investigation if necessary. The Level II investigative report will state conclusively as to the occurrence of the alleged incident, conclusively as to the nature of the sexual abuse and recommendations regarding the need for further investigation. Upon completion of the Level II investigation, the Level I investigator will forward copies of the Level II investigative report to the employee, the employee's immediate supervisor and the student's parent. The Level I investigator will notify the person filing the report of the current status of the case.

If the Level II investigator's report or law enforcement officials conclude sexual abuse occurred, or the employee admits the violation, or the employee has surrendered the employee's certificate or license, the Level I investigator will file a complaint on behalf of the district after obtaining the superintendent's signature with the State Board of Educational Examiners. The Level I investigator will also arrange for counseling services for the student if the student or student's parents request counseling services.

In cases involving founded physical or sexual abuse by a licensed employee, the board will notify the Board of Educational Examiners. Information of unfounded abuse at Level I or Level II will not be kept in the employee's personnel file. If the Level I investigative report is founded but Level II is unfounded, then the Level I report is removed from the employee's permanent file.

It is the responsibility of the board to annually identify a Level I and Level II investigator. The board will also designate annually an alternate Level I investigator, preferably of the opposite sex of the designated Level I investigator, to whom reports may also be made. The names and telephone numbers of the Level I investigator and the alternate Level I investigator is included in employee handbooks, student handbooks, annually published in the local newspaper, and prominently displayed in all school buildings.

GIFTS TO EMPLOYEES

Employees may receive a gift on behalf of the school district. Employees will not, either directly or indirectly, solicit, accept or receive any gift, series of gifts or an honorarium unless the donor does not meet the definition of "restricted donor" stated below or the gift or honorarium does not meet the definition of gift or honorarium stated below.

A "restricted donor" is defined as a person or other entity which:

- Is seeking to be, or is a party to, any one or any combination of sales, purchases, leases or contracts to, from or with the school district;
- Will be directly and substantially affected financially by the performance or nonperformance of the employee's official duty in a way that is greater than the effect on the public generally or on a substantial class of persons to which the person belongs as a member of a profession, occupation, industry or region; or
- Is a lobbyist or a client of a lobbyist with respect to matters within the school district's jurisdiction.

A "gift" is the giving of anything of value in return for which something of equal or greater value is not given or received. However, "gift" does not include any of the following:

- Actual registration costs for informational meetings or sessions which assist a public official or public employee in the performance of the person's official functions. The costs of food, drink, lodging and travel are not "registration costs" under this paragraph. It is the responsibility of each employee to know when it is appropriate to accept or reject gifts or an honorarium.

NOTE: This policy is a reflection of the current Iowa law regarding gifts to school district employees.

PUBLIC COMPLAINTS ABOUT EMPLOYEES

The board recognizes situations may arise in the operation of the school district which are of concern to parents and other members of the school district community. While constructive criticism is welcomed, the board desires to support its employees and their actions to free them from unnecessary, spiteful, or negative criticism and complaints that do not offer advice for improvement or change.

The board firmly believes concerns should be resolved at the lowest organizational level by those individuals closest to the concern. Whenever a complaint or concern about an employee is brought to the attention of the board it will be referred to the administration to be resolved. Prior to board action however, the following should be completed:

- (a) Matters concerning an individual student, teacher, or other employee should first be addressed to the teacher or employee.
- (b) Unsettled matters from (a) above or problems and questions about individual attendance centers should be addressed to the employee's building principal for licensed employees and the superintendent for classified employees.
- (c) Unsettled matters regarding licensed employees from (b) above or problems and questions concerning the school district should be directed to the superintendent.
- (d) If a matter cannot be settled satisfactorily by the superintendent, it may then be brought to the board. To bring a concern regarding an employee, the individual may notify the board president or superintendent in writing, who may bring it to the attention of the entire board, or the item may be placed on the board agenda of a regularly scheduled board meeting in accordance with board policy.

It is within the discretion of the board to address complaints from the members of the school district community, and the board will only do so if they are in writing, signed, and the complainant has complied with this policy.

EMPLOYEE OUTSIDE EMPLOYMENT

The board believes the primary responsibility of employees is to the duties of their position within the school district as outlined in their job description. The board considers a regular full-time employee's duties as full-time employment. The board expects such employees to give the responsibilities of their positions in the school district precedence over any other employment.

It shall be the responsibility of the superintendent or his/her designee to counsel employees, whether full-time or part-time, if, in the judgment of the superintendent and the employee's immediate supervisor, the employee's outside employment interferes with the performance of the employee's duties required in the employee's position within the school district.

The board may request the employee to cease the outside employment as a condition of continued employment with the school district.

EMPLOYEE PHYSICAL EXAMINATIONS

Good health is important to job performance. Employees may present evidence of good health, in the form of a physical examination report, prior to their employment with the school district.

School bus drivers will present evidence of good health every other year in the form of a physical examination report unless otherwise required by law or medical opinion. Employees whose physical or mental health, in the judgment of the administration, may be in doubt will submit to additional examinations, when requested to do so, at the expense of the school district.

The cost of the initial examination will be paid by the employee. The form indicating the employee is able to perform the duties for which the employee was hired must be returned prior to payment of salary. The cost of bus driver renewal physicals will be paid by the school district up to the rate charged by Sanford Medical Center. The school district will provide the standard examination form to be completed by the personal physician of the employee. The form indicating the employee is able to perform the duties for which the employee was hired must be returned prior to payment of salary. An additional form stating the employee did not test positive for tuberculosis, tested within the last 3 years, must be returned prior to payment of salary. Employees identified as having reasonably anticipated contact with blood or infectious materials will receive the Hepatitis B vaccine or sign a written waiver stating that they will not take the vaccine.

It is the responsibility of the superintendent to write an exposure control plan to eliminate or minimize district occupational exposure to blood borne pathogens. The plan for designated employees will include, but not be limited to, scope and application, definitions, exposure control, methods of compliance, Hepatitis B vaccination and post-exposure evaluation and follow-up, communication of hazards to employees, and record keeping.

The requirements stated in the Master Contract between employees in that certified collective bargaining unit and the board regarding physical examinations of such employees are followed.

COMMUNICABLE DISEASES - EMPLOYEES

Employees with a communicable disease will be allowed to perform their customary employment duties provided they are able to perform the essential functions of their position and their presence does not create a substantial risk of illness or transmission to students or other employees. The term "communicable disease" will mean an infectious or contagious disease spread from person to person, or animal to person, or as defined by law.

Prevention and control of communicable diseases is included in the school district's bloodborne pathogens exposure control plan. The procedures will include scope and application, definitions, exposure control, methods of compliance, universal precautions, vaccination, post-exposure evaluation, follow-up, communication of hazards to employees and record keeping. This plan is reviewed annually by the superintendent and school nurse.

The health risk to immunodepressed employees is determined by their personal physician. The health risk to others in the school district environment from the presence of an employee with a communicable disease is determined on a case-by-case basis by the employee's personal physician, a physician chosen by the school district or public health officials.

An employee who is at work and who has a communicable disease which creates a substantial risk of harm to a student, coworkers, or others at the workplace will report the condition to the Superintendent any time the employee is aware that the disease actively creates such risk.

Health data of an employee is confidential and it will not be disclosed to third parties. Employee medical records are kept in a file separate from their personal file.

It is the responsibility of the superintendent, in conjunction with the school nurse, to develop administrative regulations stating the procedures for dealing with employees with a communicable disease.

HEPATITIS B VACCINE INFORMATION AND RECORD

The Disease

Hepatitis B is a viral infection caused by the Hepatitis B virus (HBV) which causes death in 1-2% of those infected. Most people with HBV recover completely, but approximately 5-10% become chronic carriers of the virus. Most of these people have no symptoms, but can continue to transmit the disease to others. Some may develop chronic active hepatitis and cirrhosis. HBV may be a causative factor in the development of liver cancer. Immunization against HBV can prevent acute hepatitis and its complications.

The Vaccine

The HBV vaccine is produced from yeast cells. It has been extensively tested for safety and effectiveness in large scale clinical trials.

Approximately 90 percent of healthy people who receive two doses of the vaccine and a third dose as a booster achieve high levels of surface antibody (anti-HBs) and protection against the virus. The HBV vaccine is recommended for workers with potential for contact with blood or body fluids. Full immunization requires three doses of the vaccine over a six-month period, although some persons may not develop immunity even after three doses.

There is no evidence that the vaccine has ever caused Hepatitis B. However, persons who have been infected with HBV prior to receiving the vaccine may go on to develop clinical hepatitis in spite of immunization.

Dosage and Administration

The vaccine is given in three intramuscular doses in the deltoid muscle. Two initial doses are given one month apart and the third dose is given six months after the first.

Possible Vaccine Side Effects

The incidence of side effects is very low. No serious side effects have been reported with the vaccine. Ten to 20 percent of persons experience tenderness and redness at the site of injection and low grade fever. Rash, nausea, joint pain, and mild fatigue have also been reported. The possibility exists that other side effects may be identified with more extensive use.

HEPATITIS B VACCINE INFORMATION AND RECORD

CONSENT OF HEPATITIS B VACCINATION

I have knowledge of Hepatitis B and the Hepatitis B vaccination. I have had an opportunity to ask questions of a qualified nurse or physician and understand the benefits and risks of Hepatitis B vaccination. I understand that I must have three doses of the vaccine to obtain immunity. However, as with all medical treatment, there is no guarantee that I will become immune or that I will not experience side effects from the vaccine. I give my consent to be vaccinated for Hepatitis B.

REFUSAL OF HEPATITIS B VACCINATION

I have been given the opportunity to be vaccinated with Hepatitis B vaccine at no charge to myself. However, I decline the Hepatitis B vaccination at this time. I understand that by declining this vaccine, I continue to be at risk of acquiring Hepatitis B, a serious disease. If in the future I continue to have occupational exposure to blood or other potentially infectious materials and I want to be vaccinated with the Hepatitis B vaccine, I can receive the vaccination series at no charge to me.

UNIVERSAL PRECAUTIONS REGULATION

Universal precautions (UP) are intended to prevent transmission of infection, as well as decrease the risk of exposure for employees and students. It is not currently possible to identify all infected individuals, thus precautions must be used with every individual. UP pertain to blood and other potentially infectious materials (OPIM) containing blood. These precautions do not apply to other body fluids and wastes (OBFW) such as saliva, sputum, feces, tears, nasal secretions, vomitus and urine unless blood is visible in the material. However, these OBFW can be sources of other infections and should be handled as if they are infectious. The single most important step in preventing exposure to and transmission of any infection is anticipating potential contact with infectious materials in routine as well as emergency situations. Based on the type of possible contact, employees and students should be prepared to use the appropriate precautions prior to the contact. Diligent and proper hand washing, the use of barriers, appropriate disposal of waste products and needles, and proper decontamination of spills are essential techniques of infection control. All individuals should respond to situations practicing UP followed by the activation of the school response team plan. Using common sense in the application of these measures will enhance protection of employees and students.

Hand Washing

Proper hand washing is crucial to preventing the spread of infection. Textured jewelry on the hands or wrists should be removed prior to washing and kept off until completion of the procedure and the hands are re-washed. Use of running water, lathering with soap and using friction to clean all hand surfaces is key. Rinse well with running water and dry hands with paper towels.

- Hands should be washed before physical contact with individuals and after contact is completed.
- Hands should be washed after contact with any used equipment.
- If hands (or other skin) come into contact with blood or body fluids, hands should be washed immediately before touching anything else.
- Hands should be washed whether gloves are worn or not and, if gloves are worn, after the gloves are removed.

Barriers

Barriers anticipated to be used at school include disposable gloves, absorbent materials and resuscitation devices. Their use is intended to reduce the risk of contact with blood and body fluids as well as to control the spread of infectious agents from individual to individual. Gloves should be worn when in contact with blood, OPIM or OBFW. Gloves should be removed without touching the outside and disposed of after each use.

UNIVERSAL PRECAUTIONS REGULATION

Disposal of Waste

Blood, OPIM, OBFW, used gloves, barriers and absorbent materials should be placed in a plastic bag and disposed of in the usual procedure. When the blood or OPIM is liquid, semi-liquid or caked with dried blood, it is not absorbed in materials, and is capable of releasing the substance if compressed, special disposal as regulated waste is required. A band-aid, towel, sanitary napkin or other absorbed waste that does not have the potential of releasing the waste if compressed would not be considered regulated waste. It is anticipated schools would only have regulated waste in the case of a severe incident. Needles, syringes and other sharp disposable objects should be placed in special puncture-proof containers and disposed of as regulated waste. Bodily wastes such as urine, vomitus or feces should be disposed of in the sanitary sewer system.

Clean up

Spills of blood and OPIM should be cleaned up immediately. The employee should:

- Wear gloves.
- Clean up the spill with paper towels or other absorbent material.
- Use a solution of one part household bleach to one hundred parts of water (1:100) or other EPA-approved disinfectant and use it to wash the area well.
- Dispose of gloves, soiled towels and other waste in a plastic bag.
- Clean and disinfect reusable supplies and equipment.

Laundry

Laundry with blood or OPIM should be handled as little as possible with a minimum of agitation. It should be bagged at the location. If it has the potential of releasing the substance when compacted, regulated waste guidelines should be followed. Employees who have contact with this laundry should wear protective barriers.

Exposure

An exposure to blood or OPIM through contact with broken skin, mucous membrane or by needle or sharp stick requires immediate washing, reporting and follow-up.

- Always wash the exposed area immediately with soap and water.
- If a mucous membrane splash (eye or mouth) or exposure of broken skin occurs, irrigate or wash the area thoroughly.
- If a cut or needle stick injury occurs, wash the area thoroughly with soap and water.

The exposure should be reported immediately, the parent or guardian is notified, and the person exposed contacts a physician for further health care.

HAZARDOUS CHEMICAL DISCLOSURE

The board authorizes the development of a comprehensive hazardous chemical communication program for the school district to disseminate information about hazardous chemicals in the workplace.

Each employee shall annually review information about hazardous substances in the workplace. When a new employee is hired or transferred to a new position or work site, the information and training, if necessary, shall be included in the employee's orientation. When an additional hazardous substance enters the workplace, information about it shall be distributed to all employees, and training shall be conducted for the appropriate employees. The superintendent shall maintain a file indicating when which hazardous substances are present in the workplace and when training and information sessions take place.

Employees who will be instructing or otherwise working with students shall disseminate information about the hazardous chemicals with which they will be working as part of the instructional program.

It shall be the responsibility of the superintendent to develop administrative regulations regarding this program.

SUBSTANCE-FREE WORKPLACE

The board expects the school district and its employees to remain substance free. No employee shall unlawfully manufacture, distribute, dispense, possess, use, or be under the influence of in the workplace any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana or any other controlled substance or alcoholic beverage as defined by federal or state law. "Workplace" includes school district facilities, school district premises or school district vehicles. "Workplace" also includes non-school property if the employee is at any school-sponsored, school-approved or school-related activity, event or function, such as field trips or athletic events where students are under the control of the school district or where the employee is engaged in school business.

If an employee is convicted of a violation of any criminal drug offense committed in the workplace, the employee shall notify the employee's supervisor of the conviction within five (5) days of the conviction.

The superintendent will make the determination whether to require the employee to undergo substance abuse treatment or to discipline the employee. An employee who violates the terms of this policy may be subject to discipline up to and including termination. An employee who violates this policy shall be required to successfully participate in a substance abuse treatment program approved by the board. If the employee fails to successfully participate in a program, the employee may be subject to discipline up to and including termination.

The superintendent shall be responsible for publication and dissemination of this policy to each employee. In addition, the superintendent shall oversee the establishment of a substance-free awareness program to educate employees about the dangers of substance abuse and notify them of available substance abuse treatment programs.

It is the responsibility of the superintendent to develop administrative regulations to implement this policy.

LICENSED EMPLOYEE CONTINUING CONTRACTS

Contracts entered into with licensed employees, other than an administrator, will continue from year to year unless the contract states otherwise, is modified by mutual agreement between the board and the employee, or the contract is terminated by the board.

The first three (3) years of a continuing contract issued to a newly employed licensed employee shall be considered a probationary period. The board may waive this period, but must do so in writing. The probationary period may be extended for an additional year upon the consent of the licensed employee. In the event of termination of the employee's contract during this period, the board shall afford the licensed employee appropriate due process. The action of the board will be final.

Licensed employees whose contracts will be recommended for termination by the board will receive notice in accordance with the applicable statutory provisions and any applicable provisions of a collective bargaining agreement. The superintendent shall make a recommendation to the board for the termination of the licensed employee's contract.

Licensed employees who wish to resign, to be released from a contract, or to retire must comply with board policies in those areas.

LICENSED EMPLOYEE EVALUATION

Evaluation of licensed employees on their skills, abilities, and competence is an ongoing process supervised by the building principals and conducted by approved evaluators. The goal of the formal evaluation of licensed employees, other than administrators, but including extracurricular employees, is to improve the education program, to maintain licensed employees who meet or exceed the board's standards of performance, to clarify the licensed employee's role, to ascertain the areas in need of improvement, to clarify the immediate priorities of the board, and to develop a working relationship between the administrators and other employees.

The formal evaluation criteria is in writing and approved by the board. The formal evaluation will provide an opportunity for the evaluator and the licensed employee to discuss performance and the future areas of growth. The formal evaluation is completed by the evaluator, signed by the licensed employee and filed in the licensed employee's personnel file. This policy supports, and does not preclude, the ongoing informal evaluation of the licensed employee's skills, abilities and competence.

Licensed employees will be required to:

- Demonstrate the ability to enhance academic performance and support for and implementation of the school district's student achievement goals.
- Demonstrate competency in content knowledge appropriate to the teaching position.
- Demonstrate competency in planning and preparation for instruction.
- Use strategies to deliver instruction that meets the multiple learning needs of students.
- Use a variety of methods to monitor student learning.
- Demonstrate competence in classroom management.
- Engage in professional growth.
- Fulfill professional responsibilities established by the school district.

It is the responsibility of the superintendent to ensure licensed employees are evaluated. New and probationary licensed employees are evaluated at least twice each year.

The requirements stated in the Master Contract between employees in that certified collective bargaining unit and the board regarding evaluation of such employees will be followed.

LICENSED EMPLOYEE PROBATIONARY STATUS

The first three years of a new licensed employee's contract is a probationary period unless the employee has already successfully completed the probationary period in an Iowa school district. New employees who have successfully completed a probationary period in a previous Iowa school district will serve a one year probationary period. For purposes of this policy, an employee will have met the requirements for successfully completing a probationary period in another Iowa school district if, at the teacher's most recent performance evaluation, the teacher received at least a satisfactory or better evaluation and the individual has not engaged in conduct which would disqualify the teacher for a continuing contract.

Only the board, in its discretion, may waive the probationary period. The board may extend the probationary period for one additional year with the consent of the licensed employee. The board will make the decision to extend or waive a licensed employee's probationary status based upon the superintendent's recommendation. During this probationary period the board may terminate the licensed employee's contract at year-end or discharge the employee in concert with corresponding board policies.

Licensed employees may also serve a probationary period based upon their performance. Such probationary period is determined on a case-by-case basis in light of the circumstances surrounding the employee's performance as documented in the employee's evaluations and personnel file.
