I Love Buster

2-1-11
Buster has one sister and one brother. Buster has a job that's unusual for a dog, to be at school. The idea was from Okoboji. Buster's job is to listen to us read. When it is math, science, social studies, Buster walks or sits on Mrs. Boekhout's lap at that time.

I Love Buster Because on the first month
of school I was always frustrated
with on all math things, but when Mrs.
Boekhout told us that she was
bringing Buster I was so excited,
now when I'm frustrated sometimes
I hear clinking sounds and I
look down and I see Buster. When
he does a cute puppy face I
remember that to not be
frustrated. Every day I'm
excited to see Buster he always
brightens up my day.
